

Dear FCC: If what I read is true I think it is beyond outrageous. I respectfully ask how you can possibly explain stopping XM from providing pay services like traffic and weather? If you stop the vision that XM has you deserve to be dismantled. Read Ann Ryand Atlas Shrugged..... this is the epitome of what she warned against and fought to enlighten us about. This obvious play by a lost group of NAB lawyers should have charges brought up against them for wasting all of your time in hearing such a ludicrous argument.

Regards,
